YOLO-World: representative zero-shot failure cases

(a) Near-threshold suppression
Correctly localized, but score < 0.25

(b) Small/partial instance
Correct candidate is severely under-scored

(c) Localization failure
Best candidate does not reach IoU 0.50

(d) Multi-instance miss
One excavator has no valid proposal

(e) Small/distant proposal failure
Prediction overlaps only part of the target

Box legend

Ground-truth excavator

Best low-floor candidate

Prompt: “construction excavator”
Prediction floor: 0.001
Operating threshold: 0.25
IoU success criterion: 0.50
